Designed for the chemical industry...

HYDAC Accessories GmbH has been supplying individual special solutions, monitored and remote-controlled ball valves from the standard range and special ball valves in stainless steel for the chemical industry for many years.

HYDAC ball valves are custom-made for the demands of the chemical industry. Selected materials guarantee the highest standard of safety. Soft and metallic seals ensure maximum sealing, also at high temperatures.

Our designers create solutions which meet the demands of processing, serviceability and functionality in the chemical industry. Our ball valves are also resistant to aggressive chemicals and abrasive fluids.

HYROS Mounting Technology is also represented in the chemical industry.

Our pipe clamps conform to the requirements for acid resistance, appearance and economical mounting.

The HYROS Mounting Technology also offers solutions for component mounting of hydraulic accumulators, reservoirs etc...

1 Component mounting

- Swivel bolt band clamps with PE supports or inserts for a clamping range of 44-506 mm
- Swivel bolt clamping band with or without insert
- Clamping bands: F1 quality
- Mounting supports and swivel bolt fasteners in A4

2 Ball valve range In stainless steel

- Flange ball valve DN 15-300
- -50 °C to +350 °C
- DIN or ANSI flange
- Threaded ball valves from DN 04 to DN 50
- PN 16 to PN 315

3 Standard clamps in stainless steel

- Clamps to DIN 3015 in different sizes and models for nominal diameters 6.0 to 406.4 mm
- Plastic: Polypropylene
- Steel parts: acid resistant
- Round and flat steel U-bolt with pipe support PP for nominal diameters 17.1 to 273 mm

4 Re-directing and draining ball valves for oxygen processing system

- Re-direction and drain function
- Stainless steel version

5 Flange ball valve

- Complete unit
- Pneumatic 90° actuator
- Sensor technology
