HYDAC Accessories in rail vehicle construction.

HYDAC Accessories GmbH has been supplying a wide variety of parts for rail vehicle construction for many years now, since the first ICE was built. Our capacity covers **mounting technology, ball valves and hose couplings**.

All components are designed for the operational demands of rail technology.

1 Component mounting

- Swivel bolt band clamps with PE supports or inserts for a clamping range of 44-506 mm
- Swivel bolt clamping band with or without insert
- Clamping bands: F1 quality
- Mounting supports and swivel bolt fasteners zinc-plated, also in A4

2 Ball valve range

- Flange ball valve DN 15-300
- 50 °C to +350 °C
- DIN or ANSI flange
- Threaded ball valves from DN 04 to DN 50
- PN 16 to PN 315

3 Series strips

- Standard series strips and series strips with individual specification for a width of 30 mm
- Fire resistant material to DIN 5510/2

4 Shut-off ball valves for braking systems

- Hydraulic opening of the discharge door
- 2 blocks in each carriage

5 Brake control module

- Mounting of the air reservoirs using swivel bolt band clamps or swivel bolt clamping bands

6 Series strips (customised)

- Well-ordered pipe and cable mounting in the cable channel
- Mounting the floor panels

7 Patented series strip

- New function of the series strip
- Compensates for the differences in pipes and cables
- Allowance in the bore for locating
